

LEGEND TECHNOLOGIES

*Above and Beyond
Aerospace Technologies*

Portfolio of Services

- Sub & Major assemblies of Aerospace Structures
- Design and Fabrication of Large Aerospace Jigs.
- Manufacture of CNC Machined and Sheet Metal Components.
- Design, Manufacture and testing of:
 - a) Customized Sliprings
 - b) Standard Sliprings

AEROSPACE ASSEMBLY JIGS :

The company designs and fabricates aerospace assembly jigs with MS and aluminum material using the modular construction technique for the Sub Assembly, Major Assembly and Final assembly stages of Military Aircraft , Civil Aircraft, Helicopter and Space launch Vehicle.

We have been involved with projects like:

- LCA ☞ Front fuselage, centre fuselage jigs
- LCH ☞ Entire Assembly Jig
- GSLV MK III ☞ Interface Assembly jigs

AEROSPACE STRUCTURES :

The company assembles close tolerance, interchangeable aircraft, and spacecraft and helicopter airframe structures involving riveting, bolting, welding and stringent stage inspection. The parts are of steel, aluminum and composites.

We have been involved with projects like:

- SARAS ☞ Stub Wing
- PSLV ☞ Nose cone and aft shroud Assemblies
- LAKSHYA ☞ Rear fuselage Assembly (Pilotless target aircraft)
- SITARA (IJT) ☞ Rudder Assembly

PRECISION SLIPRINGS:

While scanning the market for opportunities to expand and diversify, Legend Technologies was selected by Vikram Sarabhai Space Centre, ISRO for the licensed production of precision sliprings.

Legend Technologies has successfully assimilated the VSSC technologies. It is now designing, manufacturing and supplying sliprings to various customers throughout the country. It has further developed the technologies to state-of-the-art standard.

Legend Technologies have the design and production capabilities for meeting a wide range of customer requirements. The company believes in continuously improving and extending its range of products and level of technologies and skills. Our products can be customized as per the special needs of different industries & applications.

We have supplied sliprings to various customers with varied applications ranging from Robotics to battle tanks etc.

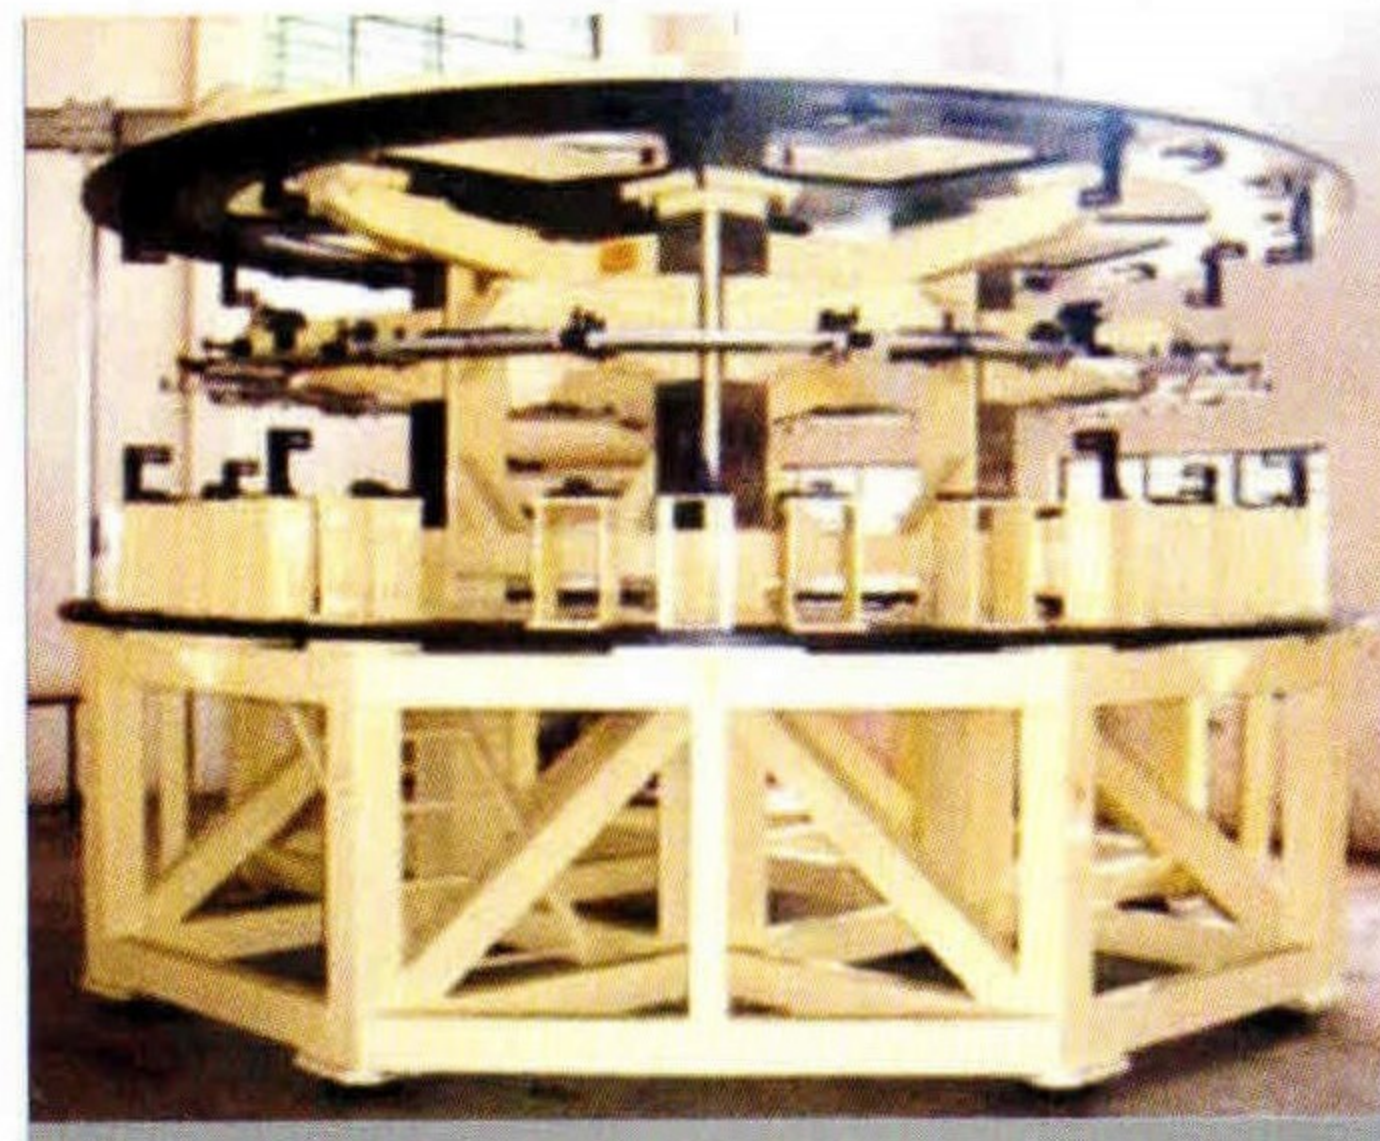

PRODUCT GALLERY

CUSTOMER - CENTRIC FEATURES

- ❖ Fully integrated, single source supply of products and services
- ❖ Competitive pricing and time to market
- ❖ Fast and flexible response
- ❖ High tech, high value added products
- ❖ Quality is the paramount Consideration
- ❖ Dependable and prompt post - sales service
- ❖ Long term, cordial and mutually beneficial customer relationship

“Cost effective solutions for the design and fabrication of aerospace assembly jigs, aerospace structures, and precision Sliprings”
